

PRODUCTIVITY + HEALTH, ONE APP

Your day shouldn't need 4 apps.

Momentum puts time-blocking, a reusable activity library, live steps, and macro targets on one calm dashboard.

Swipe to see the product →

See the whole day at a glance

Completed vs pending, steps, macros, and today's flow — one screen.

Build your activity library once

Deep work, health, and personal blocks — search, filter, reuse every day.

Track movement without extra apps

Live step counting, distance, and calories while Momentum stays open.

Know your numbers. Hit your targets.

Built-in calculator for calories, protein, carbs, and fat — with daily progress.

The screenshot shows the 'Macro calculator' interface within the 'Momentum' app. The screen is divided into sections for user input and calculated results. The input section includes fields for Sex (Male/Female), Age (0), Weight (70 kg), Height (170 cm), Activity (Desk/Light/Moderate/Active/Athlete), and Goal (Lose/Keep/Gain). The results section displays a total of 2377 kcal and macronutrient breakdowns for Protein (0/154g) and Carbs (0/292g). The bottom navigation bar contains icons for Today, Library, Insights, and Settings.
